MediSync Backend API

default

GET /health Health Check

auth

POST /api/v1/auth/login Login

POST /api/v1/auth/logout Logout

POST /api/v1/auth/forgot-password Forgot Password

POST /api/v1/auth/reset-password Reset Password

users

GET /api/v1/users/ Read Users

POST /api/v1/users/ Create User

GET /api/v1/users/{id} Read User By Id

PUT /api/v1/users/{id} Update User

DELETE /api/v1/users/{id} Delete User

PATCH /api/v1/users/{id}/activate Activate User

PATCH /api/v1/users/{id}/deactivate Deactivate User

GET	/api/v1/users/{id}/audit	Read User Audit	▼
-----	--------------------------	-----------------	---

profile

GET	/api/v1/profile/me	Read Current User	▼
-----	--------------------	-------------------	---

PUT	/api/v1/profile/me	Update Current User	▼
-----	--------------------	---------------------	---

PUT	/api/v1/profile/change-password	Change Password	▼
-----	---------------------------------	-----------------	---

patients

GET	/api/v1/patients/	Read Patients	▼
-----	-------------------	---------------	---

POST	/api/v1/patients/	Create Patient	▼
------	-------------------	----------------	---

GET	/api/v1/patients/{id}	Read Patient By Id	▼
-----	-----------------------	--------------------	---

PUT	/api/v1/patients/{id}	Update Patient	▼
-----	-----------------------	----------------	---

DELETE	/api/v1/patients/{id}	Delete Patient	▼
--------	-----------------------	----------------	---

PATCH	/api/v1/patients/{id}/activate	Activate Patient	▼
-------	--------------------------------	------------------	---

GET	/api/v1/patients/{id}/audit	Read Patient Audit	▼
-----	-----------------------------	--------------------	---

rbac

GET	/api/v1/rbac/permissions	Read Permissions	▼
-----	--------------------------	------------------	---

POST	/api/v1/rbac/permissions	Create Permission	▼
------	--------------------------	-------------------	---

PUT	/api/v1/rbac/permissions/{id}	Update Permission	▼
-----	-------------------------------	-------------------	---

DELETE	/api/v1/rbac/permissions/{id}	Delete Permission	▼
--------	-------------------------------	-------------------	---

GET	/api/v1/rbac/roles	Read Roles	▼
-----	--------------------	------------	---

POST	/api/v1/rbac/roles/{id}/permissions	Assign Role Permissions	▼
------	-------------------------------------	-------------------------	---

DELETE `/api/v1/rbac/roles/{id}/permissions/{permission_id}` Revoke Role Permission

activity-logs

GET `/api/v1/activity-logs/` Read Activity Logs

GET `/api/v1/activity-logs/stats` Read Activity Stats

GET `/api/v1/activity-logs/{id}` Read Activity Log

specializations

GET `/api/v1/specializations/` Read Specializations

POST `/api/v1/specializations/` Create Specialization

GET `/api/v1/specializations/{id}` Read Specialization

PUT `/api/v1/specializations/{id}` Update Specialization

DELETE `/api/v1/specializations/{id}` Delete Specialization

services

GET `/api/v1/services/` Read Services

POST `/api/v1/services/` Create Service

GET `/api/v1/services/categories` Read Service Categories

GET `/api/v1/services/{id}` Read Service

PUT `/api/v1/services/{id}` Update Service

DELETE `/api/v1/services/{id}` Delete Service

providers

GET /api/v1/providers/ Read Providers

POST /api/v1/providers/ Promote To Provider

GET /api/v1/providers/{id} Read Provider By Id

PUT /api/v1/providers/{id} Update Provider Profile

GET /api/v1/providers/{id}/services Read Provider Services

POST /api/v1/providers/{provider_id}/services/{service_id} Assign Service To Provider

DELETE /api/v1/providers/{provider_id}/services/{service_id}
Remove Service From Provider

availability

POST /api/v1/availability/ Create Availability

GET /api/v1/availability/{provider_id} Read Provider Availability

PUT /api/v1/availability/{id} Update Availability

DELETE /api/v1/availability/{id} Delete Availability

time-off

POST /api/v1/time-off/ Create Time Off

GET /api/v1/time-off/{provider_id} Read Provider Time Offs

PUT /api/v1/time-off/{id} Update Time Off

DELETE /api/v1/time-off/{id} Delete Time Off

PATCH /api/v1/time-off/{id}/approve Approve Time Off

appointments

POST	/api/v1/appointments/	Create Appointment	⌵
GET	/api/v1/appointments/	Read Appointments	⌵
GET	/api/v1/appointments/{id}	Read Appointment	⌵
PATCH	/api/v1/appointments/{id}/status	Update Appointment Status	⌵
GET	/api/v1/appointments/providers/{provider_id}/queue	Get Provider Queue	⌵
GET	/api/v1/appointments/providers/{provider_id}/capacity	Get Provider Capacity	⌵

waitlist

⌴

POST	/api/v1/waitlist/	Create Waitlist Entry	⌵
GET	/api/v1/waitlist/	Get Waitlist	⌵
DELETE	/api/v1/waitlist/{id}	Cancel Waitlist Entry	⌵
GET	/api/v1/waitlist/estimated-wait/{service_id}	Get Estimated Wait Time	⌵

v1

⌴

GET	/api/v1/	Root	⌵
